

Please follow Fabulash's aftercare directions to ensure proper maintenance.

Tips:

- Keep oily or greasy feeling products away from base of eyelashes.
- Use only oil free make-up remover (please read ingredients label!)
- No rubbing, picking or pulling on lashes. Remember, they are like a loose tooth, the more you wiggle and mess with them the more likely they'll fall out (shed!).

Rule of 3's:

- For the first 3 hours, allow no moisture contact on extensions.
- For the first 3 days please refrain from UV tanning, facials, chemical peels, hot tubs, sauna, salt water (tears also! sorry ladies!!) and chlorine water.
- Blow dry eyelashes for at least 30 seconds after contact with water (after shower or cleaning face).

Absolutely NO waterproof or unapproved mascaras.

If you have any questions about your lashes PLEASE do not hesitate to contact your fabulash professional!
